Grando Nest

Floor Housing System for Breeders and Layers

The Grando Nest is for fertile egg production or cage-free layers.

Cost-effective and easy to assemble, this nest features a tipping floor that expels the birds at night. This prevents broodiness, resulting in clean nest pads and top quality eggs. Designed with a hen's preferences in mind, chickens prefer the nests as a laying spot, resulting in minimal floor eggs and maximum egg production.

Key Features

- Cost-effective
- Easy-to-assemble
- Comfortable and attractive nest for hens
- Easy cleaning with bio-secure materials

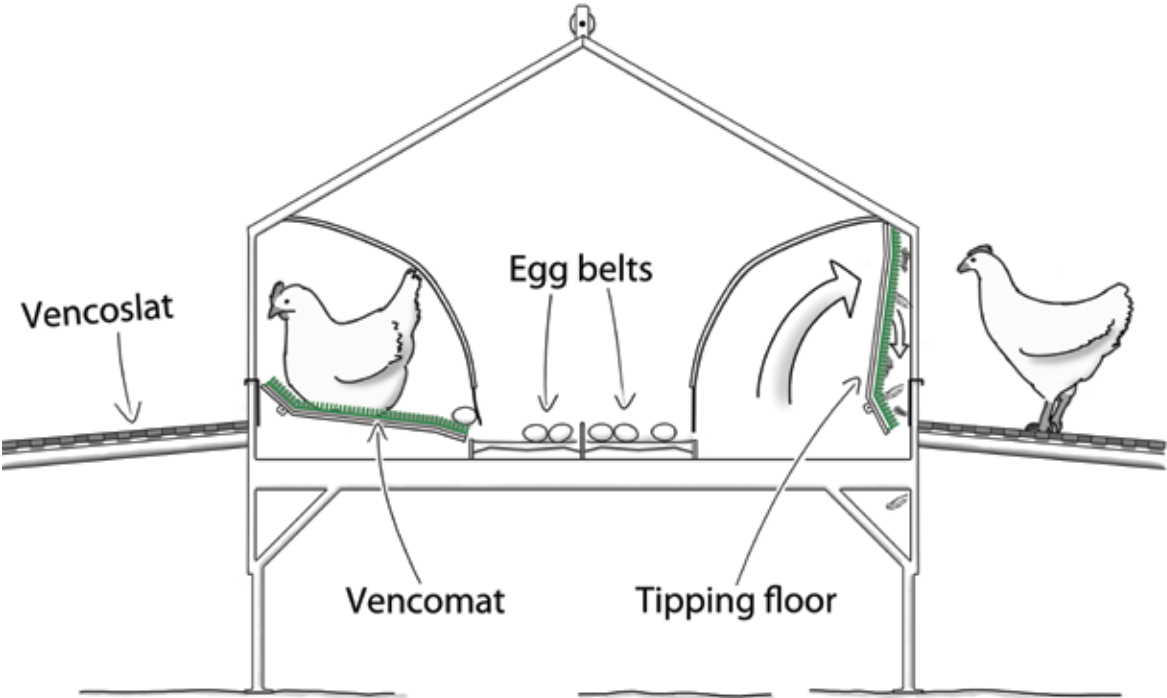

Easy Maintenance

- Durable and welfare-friendly materials
- Self-cleaning nest pad due to tipping floor
- Easy access to all vital parts for fast and easy cleaning

Quality Production

- Low percentage of floor eggs
- Nest, floor, and egg belts ensure clean, high-quality eggs
- System stimulates natural bird behavior resulting in increased egg production
