Your global resource for quality pet food ingredients

ADM, together with Specialty Commodities Inc., provides even more of the ingredients that meet today's pet food customers' demands. From ancient grains to legumes, from fruits to vegetables, our portfolio of specialty ingredients make us an ideal partner for crafting your next big pet food innovation. Our expansive ingredient catalog is ever changing to meet your needs and we're committed to being on the leading edge of evolving pet food trends with a full range of non-GMO and certified organic products as well.

Partner with us for premium ingredients, insights and innovation

Together with SCI, we provide the breadth of the world's supply chains and the superior quality assurance you demand. By collaborating with our strategic supply base, you can be assured of a safe and diversified procurement network spanning the entire globe. We are your ideal partner, no matter the size or challenges involved; from a single bag to a full truckload, mixed pallets and LTL programs, containers and railcars, we have the people, knowledge, and know-how to help your company grow. And because processing plants are in the heart of the growing regions of many specialty crops, we can provide you with invaluable market insights.

Our ingredient portfolio is as diverse as your ever-changing needs

At SCI, we specialize in nuts, seeds, grains, ancient grains, fruits and vegetables, oilseeds and pulses. We consistently carry thousands of quality items to satisfy your just-in-time needs or any unforeseen issues that may arise. Our vast portfolio of quality ingredients includes:
